

REMARKS

In response to the election/restriction requirement, Applicants elect the Group II claims, that is, claims 25-58. As the inflammatory condition or bacterial disease, Applicants select mastitis. Applicants select celecoxib as the anti-inflammatory agent. Claims 25-27 and 33-58 read on the elected species. Claims 1-24, 28-32, and 59-61 are cancelled.

Respectfully submitted,

John H. Engelmann, Attorney
Registration No. 28,075
